DETAILED ACTION

Claims 1 and 17 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3, 6, 10, 22, and 23, directed to the species of Groups I, III, and IV, are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Page 1, between lines 2 and 3, --This application claims benefit of U.S. Provisional Application 60/398,752, filed July 26, 2002.-- has been inserted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of claims 1 and 17, is the inclusion of the base panel including two sides joined

at first ends thereof defining a rear corner and a front side between second ends of the two sides, the front side extending outwardly and away from the rear corner beyond a linear reference extending between the second ends, and the pattern of the tool handle receptacles being forwardly offset relative to the pattern of tool handle openings and the rear corner. For claim 7, it is the inclusion of the panels being substantially identical other than at the moment negating portion of the base panel and a corresponding portion of the upper panel. For claim 19, it is the inclusion of the base panel perimeter adapted to rest on a ground surface when in use, and the tool handle receptacles having a blind bottom surface terminating at a planar bottom surface that is angled downward toward the front end of the base panel. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hugh B. Thompson II whose telephone number is (571) 272-6837. The examiner can normally be reached on Monday thru Friday 9 am to 5:30pm.
